

Privacy Notice for Parents/Carers

Under UK data protection requirements, individuals have a right to be informed about how the school uses any personal data. The school complies with this requirement by providing 'privacy notices' (sometimes called 'fair processing notices') to inform individuals about how their personal data will be processed.

This privacy notice explains how the school collects, stores and uses personal data about students and their families.

Who processes your information?

North Ridge Community School is the data controller of the personal information provided. This means the school determines the purposes for which, and the manner in which, any personal data relating to pupils and their families is to be processed.

In some cases, personal data processing will be outsourced to a third-party; however, this will only be done with your consent, unless the law or our policies allow the school to share your data. Where the school outsources data to a third-party processor, the same data protection standards that the school upholds are imposed on the processor.

Veritau Ltd is the Data Protection Officer (DPO). While the school remains responsible for data protection, the role of the DPO is to oversee and monitor the school's data protection procedures, and to ensure they are compliant with the UK data protection requirements. The DPO can be contacted via the school office on 01302720790 or via email to admin@northridge.doncaster.sch.uk

Why does the school collect personal data on students?

North Ridge Community School has the legal right to collect and use personal data relating to pupils and their families, and it may also receive information regarding them from their previous school, Local Authority (LA) and/or the Department for Education (DfE). The school will collect and use personal data in order to meet legal requirements and legitimate interests set out not only in the UK data protection requirements but also:

- Education Act 1996
- Regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013

In accordance with the above, the personal data of pupils and their families is collected and used for the following reasons:

- to support pupil learning
- to monitor and report on pupil progress
- to provide appropriate pastoral care
- to assess the quality of our service
- to comply with the law regarding data sharing
- to safeguard pupils

Whilst the provision of the majority of personal data is mandatory, some of it is provided to the school on a voluntary basis. In order to comply with the UK data protection requirements, the school will inform you whether you are required to provide certain information or if you have a choice.

What data is collected?

The categories of pupil information that the school collects, holds and shares include but are not restricted to the following:

Privacy Notice for Parents/Carers

- personal information (such as names of both pupils and their parents or carers and their addresses)
- characteristics (such as ethnicity, language, nationality, country of birth and free school meal eligibility)
- attendance information (such as number of absences and absence reasons)
- assessment information (such as national curriculum assessment results)
- relevant medical information
- information relating to special educational needs and disability (SEND)
- behavioral information (such as number of temporary exclusions)
- CCTV footage
- photographs

When collecting data, the school will inform you if your consent is needed. Where consent is required, the school will provide you with specific and explicit information with regards to the reasons the data is being collected, how the data will be used and how consent can be withdrawn.

The lawful basis on which the school will use personal data

The school will use a lawful basis to collect and use personal data. Most commonly, the school will use it where it needs to:

- comply with a legal obligation
- perform an official task in the public interest

Less commonly, the school may also process personal data in situations where:

- you have given consent to use it in a certain way
- the school needs to protect the individual's vital interests (or someone else's interests)

Where we process special categories of personal data, such as medical information and ethnicity, the processing is necessary for reasons of substantial public interest. Where this doesn't apply the school will seek consent for specific purposes.

Some of the reasons listed above for collecting and using personal information overlap, and there may be several grounds which justify the school's use of your data.

Storing personal data

Personal data relating to pupils at North Ridge Community School and their families is stored in line with the school's Data Protection Policy which can be found on the school website.

Personal information that is no longer needed, or has become inaccurate or out of date, is disposed of securely. For example, the school will shred or incinerate paper-based records and override electronic files. The school may also use an outside company to safely dispose of electronic records.

Why the school may share pupil information?

The school is required to share pupils' data with the DfE on a statutory basis.

The National Pupil Database (NPD) is managed by the DfE and contains information about pupils in schools in England. The school is required by law to provide information about our pupils to the DfE as part of statutory data collections, such as the school census; some of this information is then stored in the NPD. The DfE may share information about our pupils from the NPD with third parties who promote the education or wellbeing of children in England by:

Privacy Notice for Parents/Carers

- conducting research or analysis.
- producing statistics.
- providing information, advice or guidance.

The DfE has robust processes in place to ensure the confidentiality of any data shared from the NPD is maintained.

The school also routinely shares pupils' information with:

- pupils' destinations upon leaving the school
- the Local Authority (various departments)
- the school nurse
- National Health Service (various departments)

The school also uses various systems, such as assessment and reporting software, communication systems and curriculum software that may process pupil and family information. As the data controller the school will ensure that processors meet and uphold the required data protection standards. An up-to-date list of these third parties can be found on the school website.
