

Weekly activities

Week Commencing 22 June 2020

English and Communication

Non-fiction writing

1. Watch Deadly 60 Episode 17 and then answer the following questions.
2. Is the shark a fish or a mammal? Why?
3. What do sharks eat?
4. Where do they live?
5. What makes sharks dangerous?
6. Can you make a list of the different sharks in this episode?
7. Describe your favourite shark.

Film

8. Watch 'Shark Tale' and sing along.

Physical Education

Dance

Get moving to 'Baby Shark' or 'Under the Sea' with Little Mermaid.

PE Outdoors

Make another fitness circuit in your garden. Try and think a range of different exercises e.g. step up, arm punches, army crawling.

PE with James

Go to the NRCS website: Parent Page/PE activities

Neptune Class

Message from Class teacher

Hello Neptune Class,

I hope that you are well? Did you enjoy learning about tigers?

This week, we are continuing our work on the Deadly 60 with Steve Backshall.

This week we are learning about SHARKS. Let's see what we can learn about these big creatures.

As always, you can complete all the tasks or just pick and choose the ones that you like best.

Enjoy your daily exercise and going for a walk.

Take care.

Love from Jo

Interactive Video Activity

Watch **Deadly 60 Season 1 episode 17 – Shark Special on BBC iPlayer.**

Steve Backshall goes swimming with a whole bunch of sharks.

Life skills

(EHCP – Personal Care)

Sharks have big teeth too.

Last week we practised brushing our teeth so keep up this important life skill. Remember to brush your teeth twice a day

Also have fun in water – try some different water play activities.

This could be in a paddling pool, bath/ shower or outside in the garden.

Maths

Measurement – Capacity

Sharks live in water so let's practise measuring water.

Tasks

- Compare different quantities in cups and say which has more/less or most/least.
- Filling containers – full, empty and half full.
- Put water in a measuring jug – Can you read the scale on the jug e.g. 300ml?
- Fill a measuring jug to a given amount e.g. 200ml.
- Twinkl has lots of ideas for capacity activities on their website.
